

Dear Prospective Client,

Thank you for your interest in being matched with one of our wonderful service dogs! This packet includes the application materials to apply for a Bergin College service dog. Please read the instructions carefully, we cannot process applications until we have received all of the required information. If you have any questions about the application process, please email us at ServiceDogRequest@BerginU.edu.

Step 1: Complete the application

A completed application includes the following:

1. A \$50 non-refundable application fee (waived for Veterans with service-related disabilities).
2. For Veterans: A copy of your DD214. *Do not send the original document.*
3. Your photo (within the last year).
4. The completed *Assistance Dog Application*, which includes:
 - A. *Supportive Contact Form* - Signed acknowledgment from family members or designated supportive contacts confirming these people are aware of your application for a service dog and support the process, the placement of a service dog, and the follow-up of the team.
 - B. *Mental Health Provider Consent Form* - For patients with mental health diagnoses, this form allows us to communicate directly with your mental health treatment provider or treatment team. This consent is required in order for your application to be accepted.
 - C. The *Applicant Reference – Treatment/Service Provider Reference form* identifying any other relevant health providers we may need to contact for information on your need for a service dog.
 - D. The *Applicant Medical History Form* completed by your physician/primary care specialist/mental health provider.
*For applicants (Veterans) diagnosed with Post-Traumatic Stress Disorder, the medical history form must be filled out by the professional overseeing your mental health treatment plan. If you are a Veteran seeking a service dog for symptoms of PTSD *and* mobility limitations, please have *both* your physician and your mental health provider fill out separate medical history forms.
5. A personal letter of reference from a friend, teacher, or someone other than family.
6. A professional letter of reference from a therapist, social worker, teacher, or any other professional with whom you have contact.
7. A one-page letter stating your reasons for wanting a service dog and how you feel the dog would benefit you.
8. Contact information for all persons providing supporting documentation (individuals writing reference letters, health care providers, and any other persons sending in documentation).

Mail a hard copy to:

Bergin College of Canine Studies
Attn: Client Services
10201 Old Redwood Highway
Penngrove, CA 94951

OR email a scanned copy to: ServiceDogRequest@BerginU.edu

Please note: our Penngrove address is solely for mail. All future client trainings, as of July 2024, will take place at our Canyonville, Oregon campus.

Step Two: Preliminary Acceptance and Additional Paperwork

After a successful application review by our staff (including our Clinical Consultant), the next steps in the process begin as we send you six social style forms (to be completed by people you select), a preliminary interview form, photos & videos of your home and work (if applicable), more information on any household pets, as well as any additional documentation needed from you or your Provider. Once we receive these documents, we will add you to our Interview waitlist. Bergin College students conduct all of our interviews, under staff supervision, as part of their coursework in Assistance Dog Education. Interviews are conducted during class periods and are scheduled to fit in with the academic calendar and student coursework.

Step Three: Interview and Follow-Up

We will contact you to schedule an interview with Bergin College students on campus. If you are unable to travel to our campus, we will arrange to conduct the interview via video conference. The interview is the final step in the process that enables us to determine if our service dogs are able to meet your needs. After the interview, we may conduct further follow-ups with providers and family members.

Step Four: Final Acceptance

Approximately two to four weeks after the interview we will notify you if you are selected for a service dog placement. If you are selected for placement, you will be placed on the Waitlist. Please understand that it may take more than two years to match a client with a dog due to the high demand for assistance dogs and the necessity of matching each dog carefully to the personality and needs of each client*. In addition, our focus involves the education of the human students enrolled in our degree programs, so we do not graduate as many dogs as a traditional service dog program that employs professional trainers.

*We strongly recommend that you also apply to other service dog organizations so that you have a greater chance of being matched with a dog as soon as possible. Please see the [Assistance Dogs International website](#) for a list of programs throughout the country placing service dogs.

Note: there will be routine follow-up with staff to update the application after acceptance to the waitlist in order to keep all information up to date.

Step Five: Match

Once a potential match for you has been determined, you will be invited to attend the two-week Assistance Dog Client Training certificate course held at our Canyonville, Oregon campus. Training is scheduled to fit in with the academic calendar and is typically held in the Spring and Summer each year.

This class is taught by our Associates students who are earning their degree in Assistance Dog Education. The class will culminate in a graduation ceremony where your dog will be formally transferred from the student trainers to you. While attending this training our College policies will

apply to you. Please review the sections in our College catalog beginning with the admissions section through the end of the catalog. The catalog is available online: <https://www.berginu.edu/College-catalog.html>.

The fees associated with receiving a service dog are: a \$500 fee for the dog, as well as a \$300 fee for the two-week training course (the dog and training course fees are waived for Veterans with service-related disabilities). Other expenses you may need to plan for include: transportation, housing, food, and outings/fieldtrip expenses while attending the training course.

Ongoing Support

After successful completion of the Team Training course, you will graduate with your dog and will be responsible for the ongoing costs of caring for your new partner, which may include, but are not limited to: food, grooming, toys, other supplies, annual veterinary exam, vaccinations, and other incidental expenses. Once a dog is placed with you, we provide ongoing support for the remainder of the working partnership. We work in partnership with you to support the dog's health, behavior, temperament, and training through written, phone, video, and in-person follow-up. We have a staff member dedicated to client services available to communicate with you whenever you need advice, and we have training staff that are ready to consult with you and support your needs on an ongoing basis.

At a minimum, we proactively reach out for regular follow-up each month for the first nine months of placement, and then annually thereafter. We do require in-person visits post-graduation, which is the financial responsibility of the client.

In addition, we are proud to offer our clients the opportunity to become full owners of their dog, depending on the specifics of each case. We also know that when a dog approaches retirement, it can be an uncertain and stressful time for our clients, so we give priority to our existing clients who seek a successor dog when their dog approaches retirement.

Client Placement Overview and Policy

Students at Bergin College train and place service dogs as a part of the Assistance Dog Education degree program. Our main focus is providing these students with a thorough, in-depth and experiential education in the training and placement of service dogs. We appreciate your understanding and willingness to help our students learn, and we hope that our students will, in turn, be able to help you by training and placing one of our wonderful service dogs with you.

Bergin College of Canine Studies is committed to providing equal opportunities for all applicants regardless of ethnicity/race, color, sex, age, religion, marital status, sexual orientation, disability, gender, national origin, medical conditions, status as a veteran, or political or organizational affiliation.

Please read more about the dogs we place and our policies below:

- **Service dogs** are placed with adults, children, and veterans with mobility limitations who can competently handle the dog and maintain its well-being (with limited attendant or familial support). In addition, they would benefit from help with tasks such as: retrieving items, pushing buttons for elevators and doors, turning lights on/off, and pulling a manual wheelchair. We will only place dogs with children who have the maturity, physical ability, and desire to command and care for the dog. *To apply for a service dog, please fill out the Assistance Dog application.
- **Service dogs** for military service members and veterans who have been diagnosed with trauma related conditions such as Post Traumatic Stress Disorder (PTSD) and Traumatic Brain Injury (TBI) who would benefit from tasks for panic prevention and behavior interruption, as well as tasks that encourage social interaction. *To apply for a service dog, please fill out the Assistance Dog application.
- **ALL Applicants must have an established baseline for at least 1 year prior to applying for a dog (i.e. regular provider, daily routine/activities, social support, living situation, job/school, etc).**
- **Applicants who reside in residential facilities** that provide care such as nursing homes, Community Living Centers, or rehabilitation centers, must be able to provide basic care for the dog or have a designated attendant who can provide care throughout the day on a daily basis. These applicants must also have a plan to transport the dog to a veterinarian in case of an emergency. *Accepted on case-by-case basis.*
- **Applicants who are hospitalized frequently** must identify a designated caregiver for the dog who can house and provide care for the dog on an emergent basis, in the event the applicant is hospitalized and unable to care for the dog for a period of time. *Accepted on case-by-case basis.*
- **Applicants who are currently in treatment programs** (substance abuse, physical rehabilitation, etc.) must wait *at least 1 year* before applying in order to establish a baseline (i.e. regular provider, daily routine/activities, social support, living situation, etc.).
- **Applicants who have been psychiatrically hospitalized** must wait *at least 1 year* before applying for a service dog. This allows for the applicant to increase psychiatric stability prior to applying, which is important because the service dog application process and team training process, if approved for a service dog, are quite intensive and will require significant insight and coping skills.
- **Facility dogs** are placed with teachers, nurses, facility managers or others who work in care facilities. Facility dogs provide invaluable benefits to the populations they serve, but they do not meet the legal definition of a service dog and do not have public access rights outside of their assigned facility. *To apply for a facility dog, please fill out the Facility Dog application.

- **Animal Assisted Therapy dogs** are placed with counselors, psychologists, psychiatrists, and teaching specialists who wish to integrate a dog into their clients' treatment plans. *To apply for an animal assisted therapy dog, please fill out the Facility Dog application.
- **Social Therapy dogs** to be placed with individuals who will visit nursing homes, hospitals, participate in children's reading programs, etc. We place social therapy dogs when we have a dog being released from our assistance dog program that has the right temperament for social therapy work. *To apply for a social therapy dog, please fill out our release dog application on our website.
- Facility, Animal Assisted Therapy and Social Therapy dogs provide invaluable benefits to the populations they serve, but they do not meet the legal definition of an assistance/service dog and do not have public access rights; they are NOT covered under the Americans with Disabilities Act (ADA). The dog is legally permitted in its assigned facility and dog-friendly locations (NOT grocery stores, shopping malls, airports/airplanes, etc).
- **Students currently enrolled at the College** may not apply (or begin the application process) for a service, facility, or career change dog/release dog until after they graduate. Any application materials submitted to the Career Change/ Release Dog Department or Client Services Department will be immediately discarded.
- **Successor Clients:** Clients who previously had a BCCS dog and are requesting a successor service dog receive priority over new clients. Successor clients must have been compliant with all follow-up reporting and maintained their dog at a healthy weight. We reserve the right to decline successor clients who were noncompliant with follow-up requirements or let their dog become overweight.
- **Waitlist Policy:** At BCCS, we strive to ensure we can place dogs with all the qualified people we can help. To do that, we need the cooperation of our clients in the queue to do their part by working with us and their providers to move the process along. Bergin College of Canine Studies reserves the right, at its sole discretion, to remove a client from the waiting list. Examples include, but are not limited to: the client is not compliant with quarterly follow-up with BCCS staff and/or refuses to participate in occasional video check-ins, his/her needs for a dog have changed, or the client does not have an active mental health treatment plan with a provider (PTSD waitlisted clients). While on the Waitlist, it is the responsibility of the applicant to update BCCS on a change of contact information, provider information, and changes in medical and mental health status.

**All Clients and applicants are not required to participate in fundraising or public relations activities without expressed and voluntary consent.

We do NOT train or place the types of assistance dogs included in the following list. Please visit Assistance Dogs International's website (www.assistedoginternational.org) for a list of accredited organizations that offer these valuable services:

- Balance dogs for people who need ongoing support while walking.
- Guide dogs
- Hearing alert/service dogs
- Medical alert dogs, such as diabetic and seizure alert/assistance dogs
- **Psychiatric service dogs for civilians**
- Scent detection dogs such as allergen and gas detection dogs
- Autism service dogs
- Dementia/Alzheimer's service dogs
- Emotional support dog

Assistance Dog Application

Please note: Application must be completed by the applicant or answered under the direction of the applicant.

Bergin College of Canine Studies requests information and materials that may be considered confidential which will be used only for this application and not for any other purpose.

Assistance Dog Application

Service dogs can run into difficulties and create problems for the team if the client does not use the dog appropriately and according to the law.

Do you have:

[] The capacity to bathe, toilet, groom, provide proper nutrition, exercise and ensure proper and timely veterinarian care for the dog independently or with designated 1:1 assistance?

[] The capacity to meet the service dog's social and emotional needs throughout the dog's life?

[] The ability and motivation to accept responsibility for using the dog appropriately?

[] The financial means to cover the annual cost (food, veterinary care, flea/tick/heartworm treatment, supplies, and other incidental expenses as needed) for a dog for its life, including the potential for an increase in expenses after the dog retires (estimated to be \$1000-\$5000+/year)?

[] The ability and financial means to travel to Bergin College for an interview?

[] The ability and financial means to travel to Bergin College to attend a two-week client training (tuition, housing, travel, food, entertainment, other expenses)?

Assistance Dog Application Acknowledgment and Signature

If you have been involved in Paws for Purple Hearts, please read and check the box below:

I hereby give my permission for Bergin College of Canine Studies and Paws for Purple Hearts to exchange information regarding my physical and/or psychosocial status for the purposes of fulfilling my application for a Bergin College service dog.

The information on this application is correct to the best of my knowledge.

Applicant Medical History Form (1/8)

This form is to be completed by your physician/primary care specialist/mental health provider and sent by him/her directly back to Bergin College. Please sign the release (in box below) before giving the form to your Provider.

****For applicants (veterans only) diagnosed with Post-Traumatic Stress Disorder or Traumatic Brain Injury, the medical history form must be filled out by the professional overseeing your mental health treatment plan. If you are a veteran seeking a service dog for symptoms of PTSD and mobility limitations, please have both your physician and your mental health provider fill out separate medical history forms.***

PROVIDER NAME _____

Please release the requested information regarding my condition to Bergin University of Canine Studies. This information will help determine my abilities in regard to the placement of an assistance dog.

Applicant's Name (please print) _____

Applicant's Signature _____ Date: _____

PROVIDER INFORMATION

Name & Credentials _____

Name of Practice _____

Type of Practice _____

Street Address _____

City _____ State _____ Zip _____

Phone (_____) _____ Ext: _____ Alt. Phone Number: (_____) _____

Email _____

[] Yes, you may contact me for further information or clarification if needed. *This box must be checked.*

How long have you worked with this patient? _____

How frequently do you work with this patient? _____

Do you have any experience with canine-assisted therapy or service dogs? [] Yes [] No

If yes, please explain:

Applicant Medical History Form (2/8)

*This form is to be completed by your physician/provider and sent by him/her directly back to Bergin College.
Please sign the release before giving the form to your provider.*

PATIENT INFORMATION:

What is this patient’s primary disability? _____

What was the cause of the disability? _____

At what age was (s)he disabled? _____ Is this disability progressive? _____

If yes, please explain:

Are there additional disabilities, such as mild TBI? (If so, please identify)

Please indicate any special instruction/consideration related to your patient’s disability/medical conditions (for example hyperreflexia management, seizure precautions, etc.)

Please list all current **medications**, including medical marijuana:

Please list any **over-the-counter** medications (vitamins, supplements, sleep aides, etc.) s/he takes:

Current number of hours of attendant care per week: _____

Does the patient fall? Yes No Sometimes

If yes or sometimes, when was the last time s/he fell? How frequently does s/he fall? What management is used to remediate falling?

Applicant Medical History Form (3/8)

*This form is to be completed by your physician/provider and sent by him/her directly back to Bergin College.
Please sign the release before giving the form to your provider.*

Is the patient **currently participating** in an inpatient program or has s/he within the last 12 months?
 Yes No

If yes, please explain in more detail:

Has the patient participated in an inpatient or outpatient **mental health programs in the past**?
 Yes No

If yes, please explain: _____

Date of Admission _____ Date of Discharge _____ Program Type _____

Applicant Medical History Form (7/8)

*This form is to be completed by your physician/provider and sent by him/her directly back to Bergin College.
Please sign the release before giving the form to your provider.*

Please provide additional details to describe mobility, such as the use of arms, legs, fine motor skills, ability to bend, and balance:

Service dogs can run into difficulties and create problems for the team if the client does not use the dog appropriately and according to the law.

Would you expect that the patient:

Has the capacity to bathe, toilet, groom, provide proper nutrition, exercise, and ensure proper and timely veterinarian care for the dog independently or with designated 1:1 assistance?

Has the capacity to meet the service dog’s social and emotional needs throughout the dog’s life?

Has the ability and motivation to accept responsibility for using the dog appropriately?

Has the ability and financial means to travel to Bergin College for an interview, and possibly at a later date, to attend a two-week client training (tuition, housing, travel, food, entertainment, and other expenses)?

Has the financial means to cover the annual cost (food, veterinary care, flea/tick/heartworm treatment, supplies, and other incidental expenses as needed) for a dog for its life, including the potential for an increase in expenses after the dog retires (estimated to be \$1000-\$5000+/year)?

If you cannot expect any of the above, please explain:

Once a service dog is ready for your patient, the next step is for the patient to attend a two-week training at our College in Canyonville, OR. We call this Team Training. This training is physically and mentally demanding (8 hr days, lectures, public field trips, tests, quizzes, working final, etc.). Do you think your patient could handle the rigorous nature of this course? **Yes** **No** If not, please explain:

Applicant Medical History Form (8/8)

*This form is to be completed by your physician/provider and sent by him/her directly back to Bergin College.
Please sign the release before giving the form to your provider.*

Can you recommend this individual for an assistance dog? _____

Comments _____
